

## Pre-event Workshop – #EIE2023

### Creative Avenues for Impact

*Facilitator: Eva Alisic*

---

Professor Eva Alisic will join us to facilitate an interactive workshop at EIE2023 where you can learn about and explore different ways to communicate your research. This workshop is exclusively for EIE2023 participants in the early stages of their career and will take place the day before the conference at the EIE2023 site in Basel.

The workshop creates space to get to know each other before the official start of the conference, get inspired and develop your own options for incorporating creative methods and artistic practice into your research communication. We invite you to think together with other early career professionals about the changes we want to achieve and how artistic methods can support these change processes.

Join us on June 7 for a fun and interactive workshop in Basel and gain a new perspective on research communications!

#### *About Professor Eva Alisic*

[Professor Eva Alisic](#) is based at the Melbourne School of Population and Global Health, Australia. She studies how young people and families deal with traumatic experiences and disadvantage, with the aim of improving support and services. Eva collaborates extensively with people with lived experience, policy-makers, artists and a wide range of health, education and justice practitioners. Eva is a former co-chair of the Global Young Academy and has co-chaired the InterAcademy Partnership's project on

science academies' role in achieving the UN Sustainable Development Goals. She has a keen interest in supporting early- and mid-career scholars, and has co-developed the Africa and ASEAN Science Leadership Programs. Eva has a Diploma of Visual Arts. Her works address both the [content and process of her research](#).

**Please note: We have a limited number of seats for this workshop and registration is required.**
