

## #EIE2023 Poster Presentations

---

*Poster Group 8 – Implementation Context II – FRIDAY, 13.45 - 14.30*

**Session host: Alexandra Ziemann**

Poster ID	First Name	Last Name	Poster Title
262	Anne	Fahsold	How to evaluate implementation in different settings at the same time? Ideas and critical reflections from the ongoing RoutineDeCM project in Germany
93	Margit	Neher	Innovation in healthcare: leadership perceptions about the innovation characteristics of artificial intelligence- a qualitative interview study with healthcare leaders in Sweden
102	Yvonne	Noteboom	Factors influencing the use of a financial implementation strategy for sustainable implementation of vocational rehabilitation of people with mental disorders and its outcomes: a qualitative study
246	Maija	Paukkunen	Facilitators and barriers to the implementation of Work-related rehabilitation in the workplaces
192	Marta	Roczniowska	The quandry of low-value care: How do healthcare professionals make decisions concerning low-value care practices?
259	Andile	Sibiya	PATIENT JOURNEY MAPPING.: Identifying factors that influence the referral and management of children with hearing loss by describing the lived experience and the pathway to care for children with hearing loss in KwaZulu Natal, South Africa
63	Janine	Wendt	Barriers and facilitators to the implementation of the EU Fruit and Vegetable Scheme in Germany from the perspective of ministry representatives: A qualitative study using the updated Consolidated Framework for Implementation Research

*Poster Group 9 - Implementation case studies III – FRIDAY, 13.45 - 14.30*

**Session host: Heather Rogers**

Poster ID	First Name	Last Name	Poster Title
239	Flavio	Dias Silva	Using Implementation Science to evaluate and improve the Telepsychiatry Service of the greatest Latin America Hospital
190	Monika	Finsterwald	Implementing Implementation Science (ImpSci) in Organizations: Lessons learned
82	Robin	Kenter	Stakeholder perceptions of implementing digital mental health services for youths with anxiety in primary care – a mixed method study
225	Patricia	Maritim	Applying community health systems lenses to identify determinants of access to surgery among mobile & migrant populations with hydrocele in Zambia: a mixed methods assessment.
33	Saskia	Oesch	Implementation of a multicomponent family support intervention (FSI) in intensive care units (ICUs) – Study protocol for an embedded mixed methods evaluation (FICUS Implementation Study)
25	Joanie	Pellet	Implementing a nursing discharge teaching intervention for older adults
119	Dieuwke	Schiphof	De-implementation of radiographs for diagnosis of hip and knee osteoarthritis in primary care

*Poster Group 10 - Joint Implementation II – FRIDAY, 13.45 - 14.30*

**Session host: Rahel Naef**

Poster ID	First Name	Last Name	Poster Title
271	Anna	Bergström	A facilitated social innovation: Stakeholder groups using Plan-Do-Study-Act cycles for perinatal health across levels of the health system in Cao Bang province, Vietnam
217	Jacqueline	Dwane	Co-creating practice change: developing new knowledge on implementation and governance in complex youth justice settings.
165	Nadina	Peters	Facilitating the sustainment of evidence-based trauma treatment in Norwegian mental health clinics (Have we succeeded? Evaluating sustainment of evidence-based treatment for PTSD)
90	Emily	Giroux	Considering intersectionality in the implementation of an online research advocacy course: Using regression methods to understand the diversity of the reach of an online course to support meaningful engagement in spinal cord injury research
131	Siv	Linnerud	Co-creation for preventing falls in home health services
167	Elisabeth	Mamani	Using a co-design workshop approach: To develop strategies for the implementation of using intravenous iron in anaemic pregnant women in Zomba, Malawi.
44	Sophie	Meyer	Roles and responsibilities of health organisations and academic partners in implementing an initiative for multisectoral action and civic engagement for urban health in five countries with lower-middle income economies
59	Carole	Michalski-Monnerat	Stakeholder engagement in the co-development of a new model of transitional care: INSTEAD project

*Poster Group 11 - Choosing your armour II – FRIDAY, 13.45 - 14.30*

**Session host: Thekla Brunkert**

Poster ID	First Name	Last Name	Poster Title
179	Micaela Tamir	Harley Virani	Telling the Story of Intermediaries With Impact
128	Emma	Hedberg Rundgren	When academic impact is not enough: Results from a group concept mapping study conceptualizing excellence in practice-based research
37	Silke	Kuske	Integrated Consulting for Implementation Science in Health Care - our approach for research and practice
265	Heather	Morris	Theorising in social care- getting evidence into practice through theory informed implementation
17	Cáit	Ní Chorcóra	Hybrid thinking: Implementation at the interface between cultures, disciplines, sectors and systems - Potential role for implementation science to unlock implementation challenges in the environmental sector.
40 - 1	Tina	Quasdorf	Theoretical approaches to process evaluations of complex health care interventions
143	Sara	Söling	Does combining a realist inquiry approach with structural equation modeling add methodological value to implementation research?
156	Alexandra	Towns	A critical reflection on Embedded Research Translation as a new model for collaborative implementation research in international development

*Poster Group 12 - Implementation case studies II – FRIDAY, 13.45 - 14.30*

**Session host: Barbara van der Linden**

Poster ID	First Name	Last Name	Poster Title
134	Sarah	Serhal	Improving community pharmacy care for patients prescribed new long-term medications in Switzerland (myCare Start: Protocol for an Implementation Science Study)
253	Rune	Solli	The world falls guidelines 2022 clinical tool to identify older adults at risk of falling – a feasibility study
107	Trine-Lise	Steinskog	The IMPAKT (IMPlimentation and Action for Knowledge Translation) in nursing homes study - An Integrated Knowledge Translation initiative to address the knowledge-to-action gap in nursing homes.
66	Qendresa	Thaqi	Implementing evidence-informed BEreavement SupportT for Families [BEST for Family] in palliative care: A mixed-methods research study protocol.
86 - 2	Raymond Gracie	McGrath Tredget	Implementing and evaluating two novel service interventions to improve physical healthcare in mental health settings.
224	Elijah	Tyedmers	Designing for implementation: co-design of a paediatric oncology medicines database (ProCure) to support complex care provision for children with a hard-to-treat cancer
170	Maren	van Rijssen	Implementing CommuniCare- an intervention for healthcare professionals to improve their communication with patients
249	Esmee	Verheem	Active implementation Frameworks as a roadmap in the design and implementation of learn-workplaces in Dutch residential youth care

*Poster Group 13 - Implementation case studies IV – FRIDAY, 13.45 - 14.30*

**Session host: Lauren Clack**

Poster ID	First Name	Last Name	Poster Title
269	Kristel	Jenniskens	Development of an implementation plan for a multimodal approach to depression and suicide prevention in adolescents
209	Simon-Peter	Neumer	Does the participation in effectiveness study facilitate the implementation of evidence-based treatment (EBT)?
261	Joshua	Patras	Implementation of a Professional Development Model in Early Childhood Education and Care
260	Rebecca	Purvis	Where do stand with implementing polygenic scores? A review of expert recommendations.
126	Helen	Sheldon	Remote monitoring of patients with rheumatoid arthritis: A mixed methods evaluation across six hospitals in London, UK
187	Carolina	Wannheden	SAFE: Implementation of safety-netting strategies for preventing diagnostic harm in Swedish primary and emergency care settings
250	Dietlinde	Willockx	Implementing research results in childcare practices: an encounter with the complexity of daily practices and the ideologies of research.
270	Rebecca	Winter	From evidence to practice – developing and implementing an internal guideline for device-assisted gait rehabilitation

*Poster Group 14 - The intervention in focus II – FRIDAY, 13.45 - 14.30*

**Session host: Monika Sztankay**

Poster ID	First Name	Last Name	Poster Title
263	Moniek	Akkerman	Enabling aquatic exercise therapy as a promising rehabilitation method for patients with burns
264	Sven J.G.	Geelen	Self-management support for burn survivors: the systematic development of a new intervention based on evidence, theory and co-production
171	Reinhard	Jeindl	Child and Adolescent Mental Health Care Models: A Scoping Review
257	Nicole	McCarthy	Cluster randomised controlled trial to determine the impact of an activity enabling uniform on primary school student's fitness and physical activity
68	Nadia	Minian	Co-creation of a conversational agent to help patients adhere to their varenicline treatment
43	Grace	Yoon	Economic analysis of a couple-based, brief mental health intervention in Lesotho for people with HIV
