

#EIE2023 Poster Presentations

Poster Group 1 – Implementation Context I – THURSDAY, 10.15 - 11.00

Session host: Juliane Mielke

Poster ID	First Name	Last Name	Poster Title
177	Julius Cesar	Alejandre	“Under whose remit it should be?”: Views of multisectoral experts on the institutionalisation of blue-green prescribing in Scotland’s healthcare system
214	Leonieke	Boendermaker	In practice it often works differently
150	Danny	Claessens	Identifying barriers and facilitators to the implementation of the Assessment of Burden of Chronic Conditions tool in Dutch primary care – a context analysis
144	Jaakko	Harkko	Exploring the Impact of Institutional Structures on Evidence-Based Practice Implementation: A Scoping Review of the Individual Placement and Support (IPS) Model
105	Yvonne	Kelly	A qualitative exploration of experiences, enablers and barriers from multilevel stakeholders implementing health and social care standards in Ireland.
50	Olga	Muser	Contextual analysis for the development and implementation of a new care model for older adults transitioning from the hospital to their home setting: AdvantAGE.
227	Nick	Sevdalis	Implementation science and behavioural change research in Asia: Findings from a systematic scoping review
222	Heather	Rogers	How can we study context? An application of the Consolidated Framework for Implementation Research to evaluate a health promotion program implemented in primary care

Poster Group 2 – Joint Implementation I – THURSDAY, 10.15 - 11.00

Session host: Katie Burke

Poster ID	First Name	Last Name	Poster Title
194	Stephanie	Best	Embedding implementation scientists in cancer care – what to do first?
218	Andy	Bray	Building relationships through capital – a social theory perspective on implementation relationships.
191	Paula	De Juan	Stakeholders' involvement in the co-design and development of ePerinatal, a mHealth app to prevent perinatal mental health disorders in maternal health care: Study Protocol
238	Ana	Gama	Addressing inequalities on cervical cancer screening: An intervention including educational sessions and self-sampling to enhance screening among hard-to-reach women in Portugal, within the ELEVATE project
275	Ana	Gama	Engaging hard-to-reach young people not in employment, education, or training (NEET): bridging the gap between research and practice
234	Torgeir	Mathisen	A participatory approach for implementing competence and routines for structured post stroke vision assessment in municipal health care services
274	Ingibjörg	Sigtryggsdóttir	Patient Organisations Can Play a Major Role in Supporting Implementation of Real Change - Implementing a Rehabilitation Program for Children with Hearing Loss in Danish Hospitals
75	Madeleine	Winberg	Better and safer bladder care is for everyone: Building equity in implementation starting with the patients' perspectives – an intervention for increased adherence to evidence-based guidelines in orthopaedic care.

Poster Group 3 – Choosing your armour I – THURSDAY, 10.15 - 11.00

Session host: David Schwappach

Poster ID	First Name	Last Name	Poster Title
204	Ina	Cijvat	Using Causal Loop Diagrams to understand the complexities of professional development in schools
174	Nicola	Dymek	The potential of System Support Mapping in the context of formative evaluation
240	Juliane	Gleitze	Assessing Implementation - A Transdisciplinary Approach to Evaluating the Impact of ZonMw's COVID-19 Program
94	Monika	Sztankay	Scoping review on implementation science approaches used for routine electronic patient-reported outcome assessment in oncology – how are we PROceeding?
212	Maarit	Karhula	Multi-Perspective Mixed Methods Implementation Research of Rehabilitation Interventions
169	Victoria	Mirata	Ready to scale adaptive learning? An implementation framework of adaptive learning for higher education
118	Asma	MohamedSharif	Biomatrix framework as a system thinking tool to understand the transition of care complexity in low-income countries.

Poster Group 4 – Fidelity, Adaptation & Tailoring – THURSDAY, 10.15 - 11.00

Session host: Alexandra Ziemann

Poster ID	First Name	Last Name	Poster Title
91	Thomas	Engell	Guideline Implementation Mechanisms in School Health Services (GuideMe): Protocol for a hybrid factorial RCT
124	Emma	Hedberg Rundgren	Adaptation and fidelity tool (A-FiT) to support social service practitioners: a longitudinal, mixed method intervention study
115	Sanna	Herkama	Boosting the implementation fidelity of a bullying prevention program: Reflections and evaluations on developing mentorship model and delivering it
53	Maria	Mendieta	Adaptations of a community-based integrated care model for frail home-dwelling older adults using the results of a feasibility evaluation
268	Jordi	Piera-Jimenez	Towards large-scale adaption and tailored implementation of evidence-based primary cancer prevention programmes in Europe and beyond
161	Andreas	Rödlund	A methodological presentation focusing on assessing fidelity from two different perspectives
152	Diana	Trutschel	The unrecognized role of interventions fidelity in effectiveness-implementation hybrid trials: simulation study and guidance for implementation researchers
24	Johanna	Zetterlund	Professionals' attitude towards the fidelity-adaptation dilemma and the association with work-life variables that impact implementation

Poster Group 5 - Implementation case studies I – THURSDAY, 10.15 - 11.00

Session host: Regina Poß-Doering

Poster ID	First Name	Last Name	Poster Title
84	Micaela Tamir	Harley Virani	Knowledge Equity: A Core Component for Implementing System Change
180	Micaela Tamir	Harley Virani	Addressing Knowledge Injustices in Implementation Science through Actionable Allyship
137	Sonia	Dias	Implementation and monitoring of an integrated care intervention to improve early diagnosis of most frequent cancers in Latin America within EquityCancer-LA project: Challenges and opportunities
208	Sonia	Dias	Evaluation of Social Prescribing through collaborative implementation: Challenges and insights for improvement
36	Leti	van Bodegom-Vos	How active disinvestment impacts low value-care surgery in subacromial pain syndrome - a qualitative study
181	Eden	Zhu	Implementation and dissemination of home and community-based interventions for informal caregivers of people living with dementia: a systematic scoping review
142	Anja	Zimmer	Implementation and effectiveness of digital interventions for mental health: status after 2.5 years of real-world “DiGA” implementation

Poster Group 6 – Implementation Strategies – THURSDAY, 10.15 - 11.00

Session host: Cecilie Varsi

Poster ID	First Name	Last Name	Poster Title
233	Natalie	Johnson	Disseminating and scaling adolescent character strength interventions: a single-arm trial with Kenyan adolescents
219	Robin	Kenter	Evidence-based Tailored Implementation Strategies for Implementing Digital Mental Health Services in Routine Mental Healthcare – a Comparative Multiple Case-Study
38	Jeanette	Kirk	Oilcloth sessions as an implementation strategy
237	Siv	Linnerud	A tailored implementation plan for falls prevention in the primary health care – a feasibility study
226	Izzati	Rosli	Implementing Adjuvant Capecitabine Chemotherapy (ACT-C) in triple negative breast cancer: using Consolidated Framework for Implementation Research (CFIR) in University of Malaya Medical Center, Malaysia
267	Klarissa	Siebenhüner	Implementation strategies for chronic disease prevention by Swiss primary care teams: Development of a digital product to scale-up a physical activity counseling intervention
199	Christoph	Strohmaier	Quality registries in dementia care – A good-practice framework supporting the uptake, operation, and sustainability of registry systems for quality improvement
276	Lea	Saringer-Hamiti	Implementation strategies used to support nursing homes interventions in reducing unplanned hospital transfers: a scoping review

Poster Group 7 – The intervention in focus I – THURSDAY, 10.15 - 11.00

Session host: Ingrid Zechmeister-Koss

Poster ID	First Name	Last Name	Poster Title
241	Shalini	Ahuja	What interventions should we implement in England's mental-health services? The Mental-Health Implementation Network (MHIN) mixed-methods approach to rapid prioritisation.
104	Marta	Aramini	Study protocol for the development of the advanced practice nurse (APN) role for peritoneal dialysis patients, according to the Participatory, Evidence-based, Patient-focused Process for Advanced practice nursing (PEPPA) framework.
195	Lut	Berben	The HEROES (Rheumatology Transition for Young People in Switzerland) study: the study protocol
197	Åse	Bergheim	A Method to Investigate Feasibility and Safety of High-Intensity Gait Training in Inpatient Geriatric Rehabilitation
201	Laura	Caci	Hospital clowns - a novel approach to pediatric pain management in Ghana
27	Mikko	Henriksson	A Check-List Tool for Workplaces in Their Goals for Change to Enhance Work Ability at Work
266	Harvy Joy	Liwanag	Driving the Health Policy and Systems Research Ecosystem: Strengthening Institutions, Enhancing Interactions
248	Elena	Luca	Development of a complex intervention to promote civil workplaces through an exploration of the relational patterns of hospital nursing teams: an implementation study protocol
